

Our Model is Fine-Tuned

Developed by Clinicians— everything from our backend code to our branding has been created and curated by **Dr. Krieg & Dr. Comrie**.

Intervention-Oriented — SessionGlance is specifically built to highlight the clinical expertise displayed over therapeutic hours and emphasize the work done by the clinician.

Reliable Model — our model has been rigorously tested to ensure the production of reliable and consistent results and feedback.

Privacy & Security

HIPAA & HITECH Compliant — SessionGlance exceeds the standards required by federal privacy laws. Your data cannot be accessed by tech bros.

End-To-End Encryption — All data is encrypted in transit and at rest, ensuring that recordings, reports, and client details are never exposed. Your data will never be sold or used for training.

Clinician-Controlled Access — You decide who has access. Reports are locked to your secure clinician account, and no one—including our staff—can view your client data without your authorization.

More Than Just a Scribe

Most applications offer note-taking capabilities at best, but with SessionGlance, you are provided:

Draft Session Notes

Draft Assessment Notes*

Draft Psychological Assessment*

Draft Session Feedback Reports

“As clinicians ourselves, we understand the sacred trust between therapist and client. SessionGlance isn’t just about efficiency—it’s about protecting the therapeutic space. Our technology ensures that you can document and grow your practice without ever compromising your clients’ confidentiality.”

Try **SessionGlance Free** — still on the fence? We are so confident about our tool, we're offering all new customers a **month free** to try it out for themselves. Once you realize how it feels to *get paid for ALL you do*, you'll be able to seamlessly transition into the plan of your choice. **Visit [SessionGlance.com](https://www.sessionglance.com) to get started free!**

Our Model is Fine-Tuned

Optimized UX — our interface is simple to use and designed by experts trained in the healthcare industry.

Learning Tools — getting started with SessionGlance is simple with our video tutorials covering everything from download and set-up to editing reports.

Direct Support — **Dr. Krieg & Dr. Comrie** are here to assist with everything from questions about editing assessments to billing guidance as well as on-demand consultation for members.

The screenshot displays the SessionGlance application interface. At the top, the SessionGlance logo and a 'Logout' button are visible. The main content area is divided into two sections. On the left, under 'Patient Records', there is a search bar and a patient profile for 'Snake, Solid' with details like 'May 30, 1985', 'Blue Cross', and 'ID: 0099029'. Below this, a 'Diagnosis - F33.0' is listed. On the right, the 'Status: Recording Session' section features three large circular buttons: 'RECORDING' (with a clock icon showing 11:17am), 'STOP' (with a square icon), and 'UPLOAD' (with an upward arrow icon). At the bottom, a 'My Account' button is shown with the text 'edit your reports online' and a share icon.
